

## DISCLAIMER STATEMENT

---

*Unless expressly specified otherwise, all capitalized terms used in this disclaimer statement (this **Disclaimer Statement**) shall bear the meaning ascribed thereto in the 'REQUEST FOR PROPOSAL' (consisting of **VOLUME I (TENDER PROCEDURE)**, **VOLUME II (TECHNICAL SPECIFICATIONS)** and **VOLUME III (CONCESSION AGREEMENT)**) dated August 16, 2024 (as amended, supplemented and modified through subsequent response to Bidders' queries documents and addenda to the RFP)) (the **RFP Documents**).*

This Disclaimer Statement is being issued by KWSC in relation to the Project. Further to the request of various Interested Parties during the Pre-Bid Meeting dated September 4, 2024, KWSC has elected to provide the following technical studies (collectively, the **Technical Studies**) conducted by the technical advisors for the Project on behalf of KWSC:

1. Bathymetric Study;
2. Climatic Data;
3. Geotechnical Investigation Report;
4. Seawater Intake Drawings;
5. Geography & Topography Survey;
6. Water Sample Report; and
7. Environmental Impact Assessment Report

No GoS Party makes any representations (express or implied) or warranties as to the accuracy or completeness of the information contained in the Technical Studies, or in any other document or information made available to a person in connection with the Project (including the Tender Procedure); and the same shall have no liability for the Technical Studies or for any other written or oral communication transmitted to the recipient in the course of the recipient's evaluation of the Project. No GoS Party shall be liable to reimburse or compensate any recipient for any costs, fees, damages or expenses incurred by the recipient in evaluating or acting upon the Technical Studies or otherwise in connection with the Project.

KWSC has made available the Technical Studies to the Interested Parties solely for the purpose of enabling them to prepare and submit Bids in response to the RFP. The Technical Studies are for reference purposes only and are not to be construed as a representation or warranty of any kind, express or implied, regarding their accuracy, completeness, or reliability.

Each Interested Party is responsible for conducting its own independent investigation, due diligence, and verification of all aspects of the RFP and the Technical Studies, including any assumptions, projections, and conclusions. The GoS Parties shall have no liability or responsibility for any reliance placed on the Technical Studies or for any errors, inaccuracies, or omissions therein.

KWSC reserves the right to amend, supplement, or withdraw any part of the Technical Studies at any time without notice. The provision of Technical Studies does not obligate KWSC to provide any updates, corrections, or additional information, nor does it create any obligation for KWSC to enter into any agreement or contract with any Interested Parties.

To the fullest extent permitted by Law, the GoS Parties shall not be liable for any loss, damage, or expense incurred by any Interested Parties or any other person arising out of or in connection with the use of or reliance on the Technical Studies, including but not limited to any inaccuracies, errors, or omissions contained therein.

By accessing the Technical Studies, the Interested Parties acknowledge and accept this Disclaimer Statement by the act of using and relying upon the Technical Studies.

This Disclaimer Statement is to be read in conjunction with, and forms part of, the RFP Documents.

# Ibrahim Hyderi Desalination Plant

## Climatic Data acquisition and assessment

### Climatic Data

Karachi Airport Station of Pakistan Meteorological department (PMD) has been opted for climatic and hydrological studies of the project area of Ibrahim hyderi desalination plant. This station has been opted due to its relevance to the project site and local data availability.

Climatic Parameters such as Temperature, wind speed, humidity and solar radiation data for past 20 years from 2001 till 2020 have been acquired from PMD for the required station of Karachi.

Climatic data has been acquired for the following durations;

Climatic parameter	Data Type	Year	Available data range
Rainfall	1-day Maximum	62	1960-2021
Temperature	Mean monthly	20	2001-2020
Relative Humidity at 0000 UTC	Mean Monthly	20	2001-2020
Relative Humidity at 1200 UTC	Mean Monthly	20	2001-2020
Wind speed at 0000 UTC (Knots)	Mean Monthly	20	2001-2020
Wind speed at 1200 UTC (Knots)	Mean Monthly	20	2001-2020

### Rainfall Analysis

1-day Annual Maximum rainfall of past 62 years have been analyzed. The analysis incorporated historic rainfall records of 2020 and 2022 of Masroor base station, as it observed as highest of both the station for maximum 1-day rainfall record. It is observed that the city has observed historic rainfall records in the year 1977, 2020 and 2022 of 207mm, 234mm and 204 mm respectively.

## Mean Monthly Rainfall

The city of Karachi receives most of its rainfall in the monsoonal season with annual average rainfall of about 175 mm. Mean monthly rainfall in the monsoon ranges from 19 mm to 65 mm. The months of July and August are observed to be wet months with mean monthly rainfall of 61 and 65 mm respectively.

## Temperature

Mean monthly temperature of Karachi of past 20 years Annual average temperature experience in Karachi is 27°C ranging between mean maximum and minimum of 28 °C and 26.8 °C respectively.

Temper ature	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC	Annual (°C)
Average	19	22	26	30	32	32	31	30	30	30	25	21	27

Min	17.2	19	25.1	29	30.6	31.3	29.5	28.3	28	27.7	23.7	19.6	26.8

## Wind Speed

Annual average wind speed around midnight is about 4 Knots ranging between 6 and 3 knots approximately. Whereas, the wind speed is higher around evening that is about 8 Knots varying between 6.7 to 10 Knots.

**At 0000 UTC (knots)**

Wind Speed (Knots)	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC	Annual Knots
Average	2	3	3	4	6	7	8	7	6	2	2	2	4

**Relative Humidity (%)**

Relative humidity of the Karachi Station implies annual average humidity around evening about 48% average ranging between 51% and 45%, this humidity level increases mostly by the midnight, the statistics suggest that relative humidity is about 73% with highest being 77% and the lowest around this time being 70%. As per EPA guidelines, the relative humidity should be below 60% ideally between 30% and 50%.
